

CustomMaps Capstone Project

Jessie Taubert, Natalie Wilkins, Nate Stovak, Kira Halls
CS4500 / Spring 2025

Overview

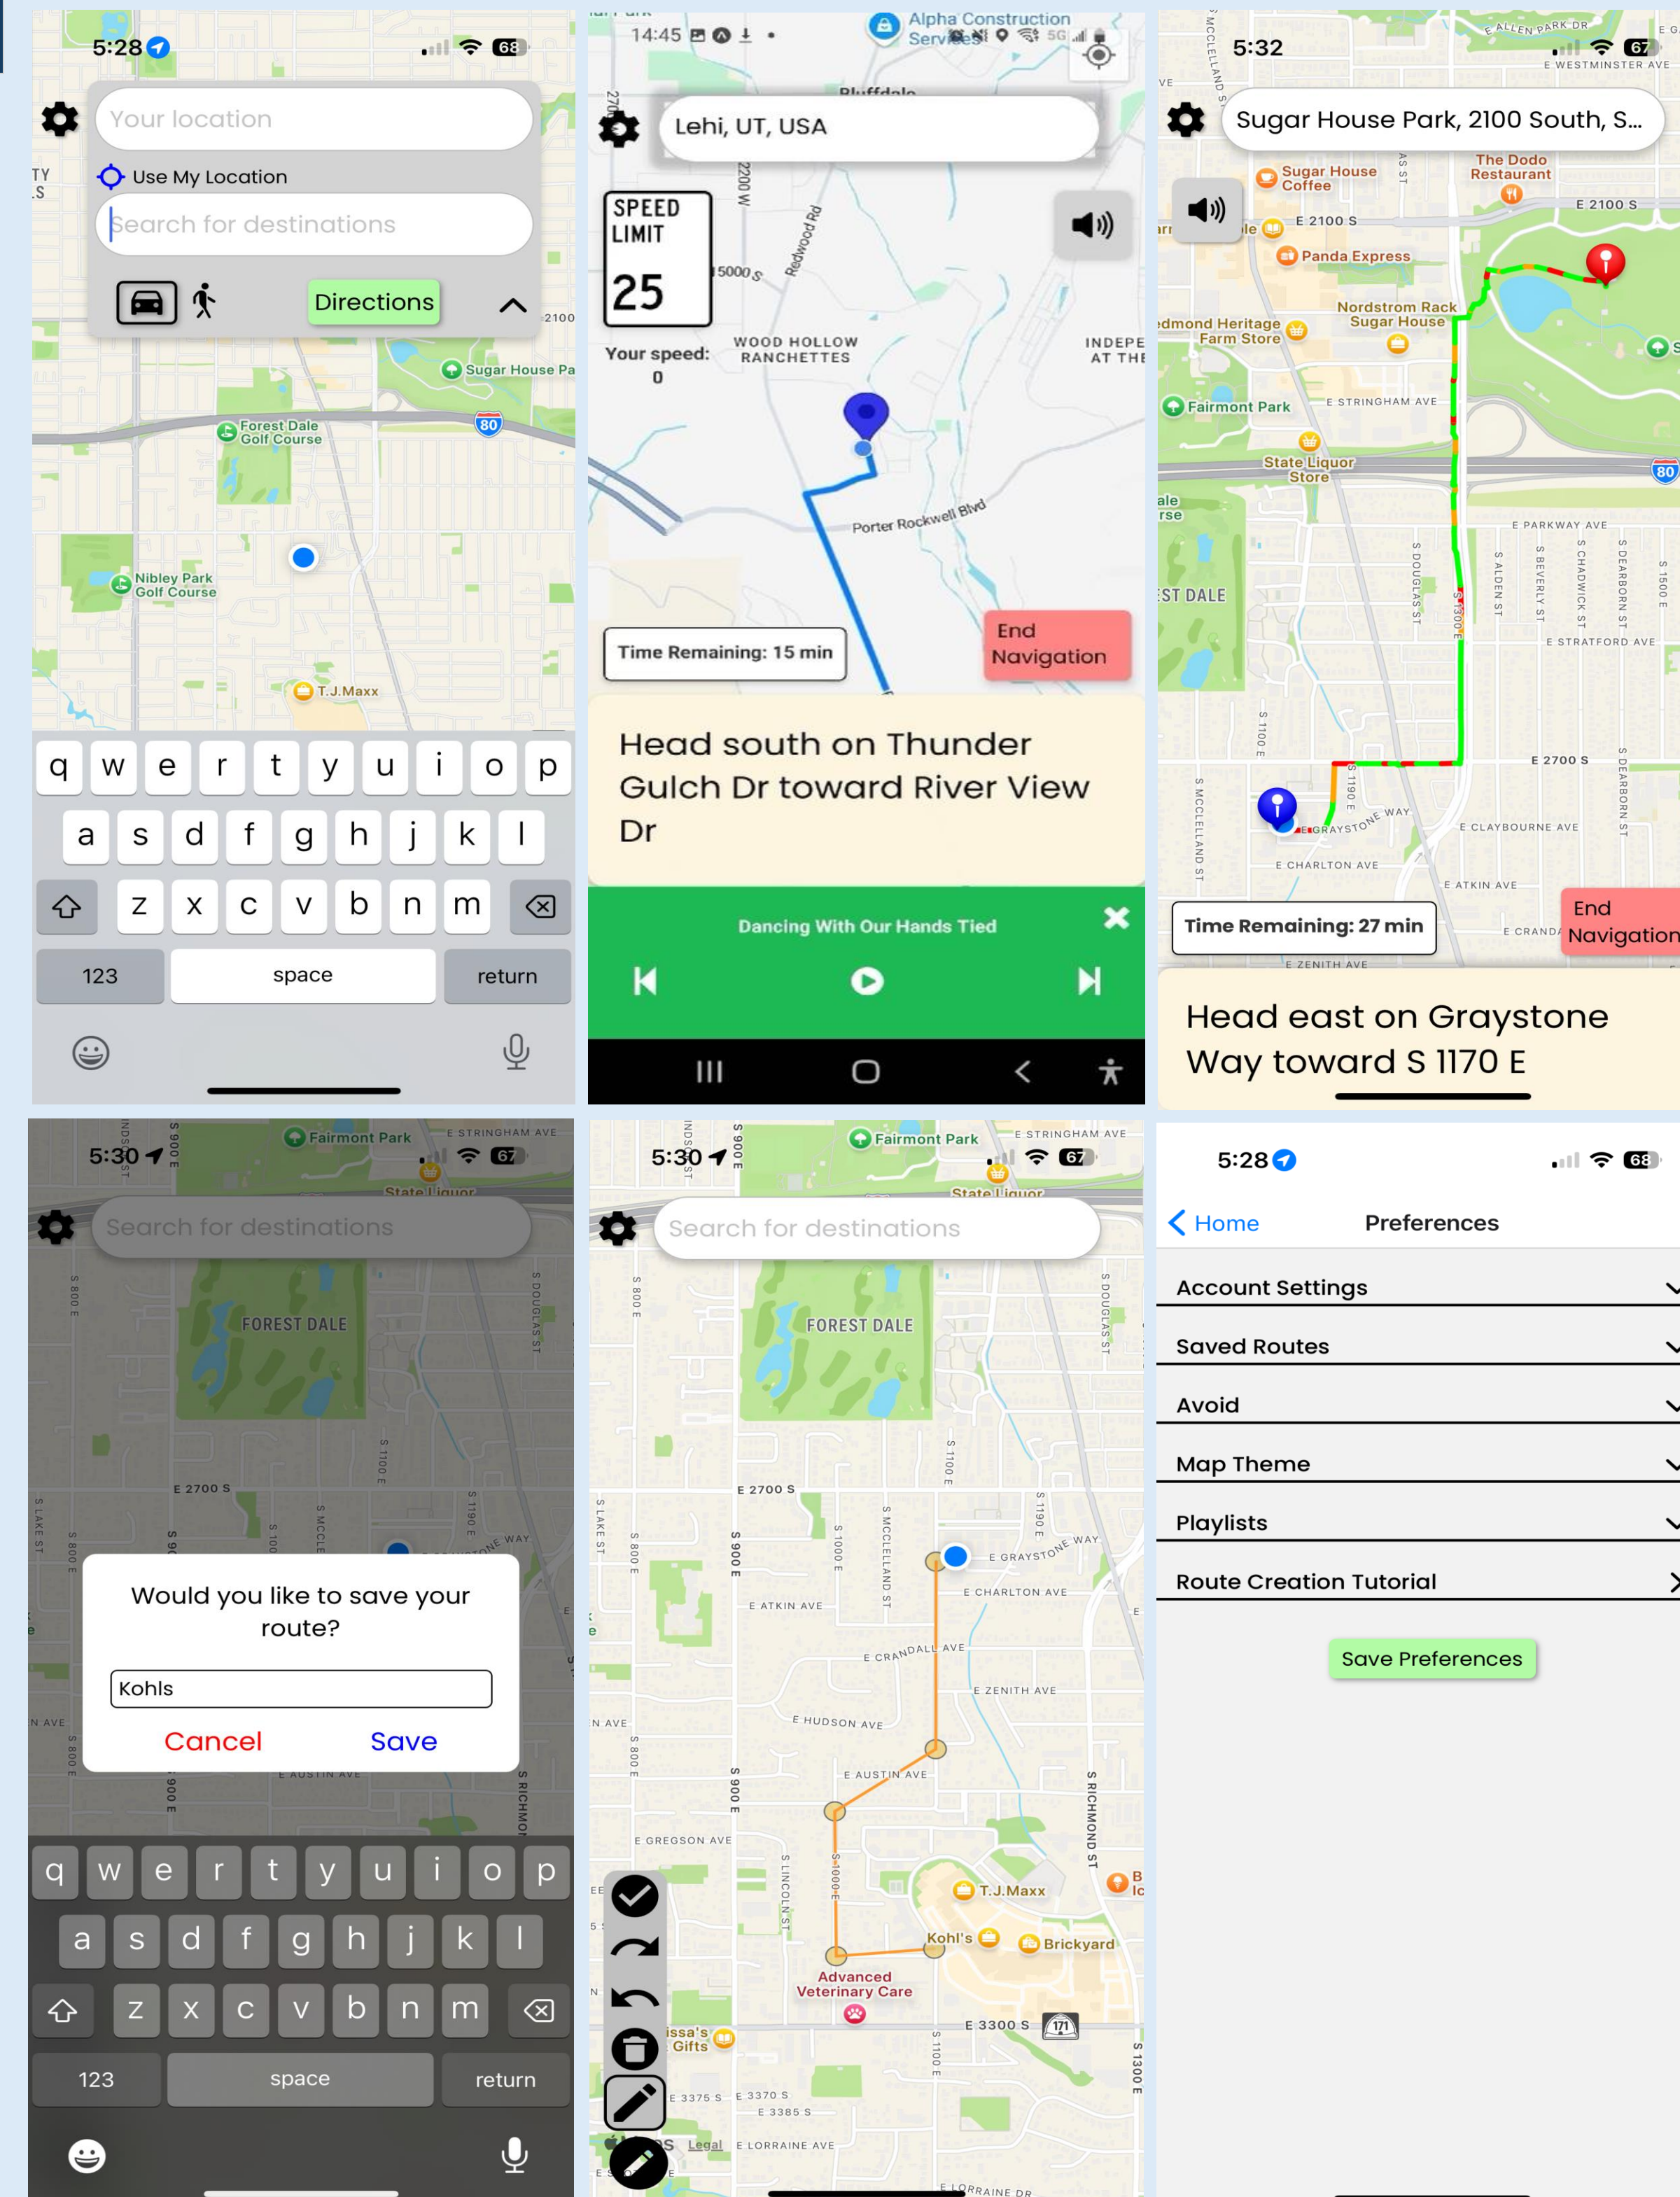

Use Cases

- Navigation for routes you design
- Motorcycles: avoid busy roads
- Walking: curate ideal walking routes – elevation information
- Less distracted driving: no need to switch apps for music
- Retake common routes

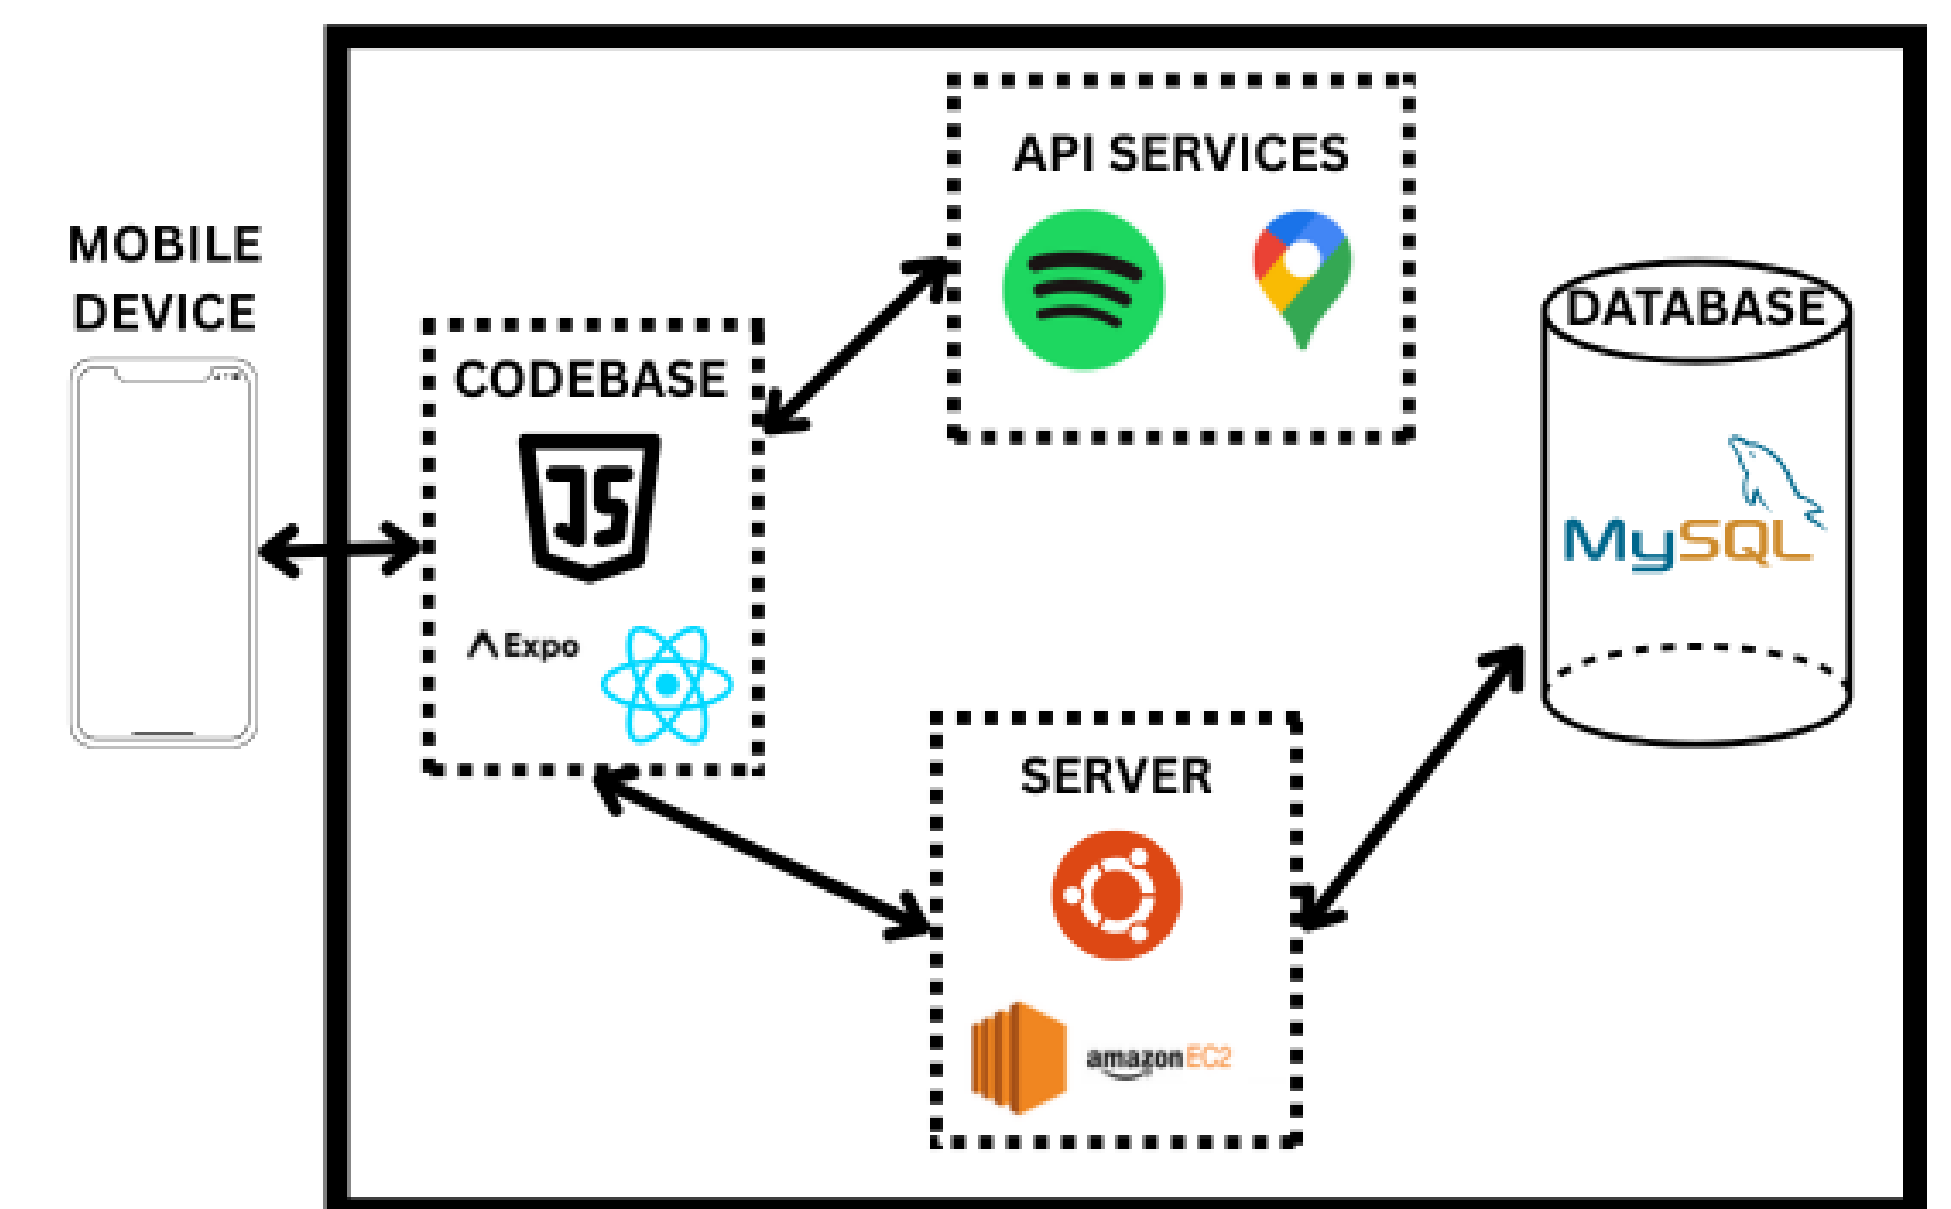

Key Features

- Navigation & visuals to a destination
 - Travel time & speed limit
- Custom route creation
 - Connect points & get directions
- Save routes & retake them
 - Share routes to other users
- Preferences
 - Map theme
 - Avoid highways or tolls
- Spotify playlists
 - Mini player overlays map

User Interface

System Architecture

Utilized Technologies

- JavaScript
 - React Native
 - Node.js
- Expo Go
- MySQL
- AWS
 - EC2
 - S3 Bucket
- GitLab
